

**Formal ontology:** Commentary on Job (An ontology on Saint Gregory's Commentary on Job)

**License:** CC-BY-NC-SA

**Creators:** Raffaella D'Urso

**Contributors:** Fahad Khan, Timothy Tambassi

**Main Project:** *OPhEMA* project (Ontology for the Philosophy of Early Middle Ages) aims to establish what is meant by philosophy in the Early Middle Ages. To do this, we plan to develop a specific IT ontology for the Philosophy of the Early Middle Ages, which might be suitable to grasp the philosophical knowledge contained in the literature of the field. The scope of this tool is to make available ontologically annotated texts for a variety of scientifically relevant uses.

**URIs:** forthcoming
